# LADBROKE GARDENS

## Project Management

Thomas & Thomas have been involved in the general maintenance of two houses on Ladbroke Gardens since 1985. We refurbish both houses externally and internally. Works are undertaken as part of a cyclical maintenance programme, taking into account the section 20 process calling upon contributions from leaseholders.

## Project Highlights

Projects have been consistently completed on programme and on budget. Works took place in the summer months to minimise disruption. Thomas & Thomas have maintained this long standing client relationship.
